Dear Chairman Genachowski and Commissioners:

On behalf of the Congress of California Seniors (CCS), We are writing you in support of the Commission's 11-65 proceeding regarding AT&T's application to merge with T-Mobile. This is a merger that will make access to wireless broadband faster and more convenient for everyone in America, including seniors.

Although senior citizens may seem like unlikely supporters of advanced technology, by allowing the merger to continue, the FCC will be ensuring that senior citizens are better able to keep in touch with their families and better able to stay connected to the outside world.

This merger will increase the numbers of cell sites and allow for the creation of a faster, more advanced network. These improvements mean that senior citizens will be better able to stay in touch with families, friends and doctors.

The Congress of California Seniors urges the FCC to approve this merger so that everyone, not just seniors, can begin enjoying the resulting improved service and technology. CCS strongly supports this proposed merger.

Respectfully,

A handwritten signature in black ink that reads "Hank Lacayo". The signature is fluid and cursive, with the first name "Hank" being more prominent.

Henry L. "Hank" Lacayo
State President
